

## **6.6 MDA Convention Committee Report**

I have had the privilege of serving as the MDAA's representative on the MDA Convention Committee since the fall of 2018. The committee is chaired by Dr. Kmet and while the committee has been busy planning for the upcoming January 2019 convention, we are simultaneously securing speakers and sponsorship for the 2020 convention. The Manitoba Dental Association will hold their 2020 convention in conjunction with Canadian Dental Association on April 2-4, 2020. The theme of the 2020 convention will be "Seeing Dentistry Clearly." Various social events will be held over the course of the 2020 event to welcome guests from around the country to Winnipeg.

Please continue to visit the MDA website for convention updates and be sure to download the convention AP so you do not miss out on new information as it becomes available.

Respectfully Submitted,  
**Janet Neduzak, RDA**

## **6.7 Fluoride Committee Report**

Latest: The Fluoride committee has put together a draft report on Community Water Fluoride Programs.

The Draft was called for feedback from all interested stakeholders on CADTH. ([WWW.CADTH.CA](http://WWW.CADTH.CA))

Project: Community water fluoridation programs> Call for feedback 2018/02/08 feedback due 2018/02/23> consultation document: list of included studies> product type: Health and technology assessment> submit

Final: CADTH review will be posted for stakeholder feedback on Friday Sept 28/2018. The final report including discussion and addressing feedback is scheduled for public posting by the end of March 2019.

Respectfully Submitted,  
**Tristyn Rodriguez, RDA**
