

INSURANCE RELIEF MEASURES

In response to the COVID-19 health crisis, insurance providers across Canada are offering a suite of relief measures to their clients who have been impacted. In particular, for those clients whose driving habits have changed significantly, companies are offering reductions in auto insurance premiums to reflect this reduced risk as people work from home or have experienced a work stoppage. As well, for those who are facing financial hardship, insurance premiums may be deferred. It is recommended that individuals contact their insurance representative to determine what consumer relief measures are available to them.

Below are the relief measures offered by the major insurance providers across Canada in relation to COVID-19:
